

Release Notes

dCS Mosaic v1.44 & Network Firmware 523

1.1 Versions

Network firmware: 523

Mosaic app version: v1.44 (161)

1.2 Availability and Distribution

Mosaic v1.44 is available for Lina DAC & DAC X, Bartók DAC & Headphone DAC, Rossini DAC & Player, Vivaldi Upsampler Plus & Vivaldi One, and Network Bridge. This firmware can be downloaded via an internet update through the dCS Mosaic Control app. To update the system, navigate to **Settings > Support > Versions**, then tap **Check for Updates**.

dCS Mosaic v1.44 can be downloaded through the [App Store](#) or [Google Play](#).

2.1. New Features

- Lina DAC X Support
It is now possible to use dCS Mosaic to control Lina DAC X
- QPlay Support
Lina DAC and Lina DAC X now support QPlay

2.2. Improvements

- Improved UPnP server discovery
- Improved access to the main player screen using VoiceOver
- Fixed a bug where TIDAL Connect playback starts from an incorrect position
- Fixed audio glitches that can occur at the end of AIFF tracks
- Fixed an issue with playback of DFF files over UPnP
- Web UI updated with a field to customise the NTP server used by the device. The default is "pool.ntp.org". This should only be changed if there are problems with the default NTP server

3. Support

If you require assistance with any aspects of your dCS product, we recommend contacting your nearest dCS dealer or distributor as a first step. Our partners undergo extensive training on the entire dCS product range and are well equipped to deal with most issues or queries.

You can use our [Dealer Locator](#) tool to find a dealer or distributor in your region.

You can also find a wealth of information on the [dCS Community](#) forum, including Mosaic documentation, answers to FAQs, and information regarding common technical and support topics. The forum includes a dedicated support area, where you can post questions for the dCS support team.

Should you require further assistance, you can contact the dCS support team via email at support@dcsaudio.com. We aim to respond to all queries by the close of the next working day.
