Mosaic 1.3 & Lina Network DAC 1.01

1 ABOUT

1.1 DESCRIPTION

To support the new Lina Network DAC we have updated dCS Mosaic. This update is relevant to all dCS customers as it provides some minor fixes and stability improvements for other dCS network products.

1.2 VERSIONS

When installed, the following software versions will be displayed:

dCS Lina Network DAC Main software version: 1.01 (Lina Network DAC only)
dCS Mosaic Processor version: 1.3
dCS Mosaic Control version: 1.3

The dCS product's front panel will show the following information under VERSIONS:

Network: 509

1.3 AVAILABILITY AND DISTRIBUTION

Lina Network DAC 1.01 is available as a no-cost update for existing dCS Lina Network DAC customers. It consists of an update to the Main FPGA software and Mosaic Processor.

dCS Mosaic Control 1.3 will be available for all dCS customers.

To update, customers will need to download the latest version of dCS Mosaic Control via Google Play or the App Store and then check their dCS product for firmware updates.

3. SUPPORT

3.1 RESOURCES AND ASSISTANCE

If you're having issues with any aspects of your dCS product, we have an extensive network worldwide available to assist you.

Your first line of support should always be your nearest dCS dealer or distributor. Our partners are rigorously trained on every aspect of our product line, so they are well-equipped to deal with most issues or queries.

You can find your nearest dealer or distributor at dcsaudio.com/dealer-locator

Alternatively, you can also visit the dCS Community forum (dcs.community), where you will find complete documentation for Mosaic along with useful FAQs and information regarding common technical and support topics. There is a dedicated Support area where you can post any questions you may have.

You may also contact the dCS support team directly by email at support@dcsaudio.com, we aim to respond to any queries by the close of the next workday.
